About the book

Are you ready to move into the second half of your life? Bob Buford believes the second half of your life can be better than the first. Much better. But first, you need time to figure out what you want to do with the rest of your life.

In *Halftime*, Buford focuses on this important time of transition—the time when, as he says, a person moves beyond the first half of the game of life. It's halftime, a time of revitalization and for catching a new vision for living the second half, the half where life can be lived at its most rewarding.
